

you all voted? Record the vote, Mr. Clerk.

CLERK: 31 ayes, 0 nays, Mr. President, on the motion to advance LB 340.

PRESIDENT: The bill is advanced. LB 340 advances. For the information of the Legislature, the Chair has been informed that LB 215 has been replaced on consent calendar which is coming up soon. LB 235.

CLERK: 235, Mr. President, was offered by Senator Conway. (Title read.) It was read on January 16, referred to Miscellaneous Subjects, advanced to General File. I have no amendments to the bill.

CLERK: The Chair recognizes Senator Conway.

SENATOR CONWAY: Mr. Speaker, members of the body, this is a very innocuous bill. What it consists of simply is that the City of Wayne needs access to a hospital facility that is there. Currently the access that is being used runs through the middle of Wayne State College campus. It opens up a new street and in order to do that it runs along some adjacent property that belongs to the National Guard. The National Guard and all parties involved have spoken for this easement. It simply allows them to lay a street next to the National Guard property and have the easement rights for that. It is about a 400 foot easement along that property, so with that I'll turn it over to the body and ask for their advancement.

PRESIDENT: Senator Hefner.

SENATOR HEFNER: Mr. President and members of the body, I'll be brief in my talk this morning. I support the bill. If I remember correctly, there were no opponents at the hearing and what the City of Wayne needs is an access to the hospital, to build a road and to provide a way to get to the hospital without going through the Wayne State campus. As we all know many times we have emergency vehicles going to the hospital and so it's a little dangerous when they have to go through the Wayne State campus to get there. This would be an easement from the National Guard and they did not oppose the bill so I would urge the body to vote for this bill.
